

# VHA & ACHG GOVERNANCE CONFERENCE: *Leading the change*

Thursday 19 April 2018

The governance of health services has been under increased scrutiny in the wake of the *Targeting Zero* report, with growing emphasis on Boards to ensure effective governance for clinical care.

The Victorian Healthcare Association and the Australian Centre for Healthcare Governance will present *Leading the Change*, a forum to assist VHA members and the health sector with governance responsibilities.

Presentations from researchers and experts and the practical view of governance in the health setting from CEO's and Board members will be featured at this event.

*The ACHG is an initiative of the VHA, supporting organisations in Australia's health and community sector to improve clinical and corporate governance.*

## KEYNOTE SPEAKER:

*Dr Marie Bismark*  
Associate Professor  
Centre for Health Policy  
University of Melbourne
